Do you have a kiddo who loves music AND loves to play with other kids? Then THIS is the class for them.

Miss Sonya's Music class is a unique, controlled bundle of mass energy...and one of the funnest hours on the planet!

Miss Sonya has a **3-part approach** in her teaching.

1. **MUSIC** - We do music first, where we learn different aspects of creative arts like singing, skits, movement, and learning how to follow the leader and be part of a team (group).
2. **PLAY** – We do physical play (*when the kids have done well in the music time*) - where the kids play various games to help get the wiggles out, which promotes socialization, kind interaction with others, and let's just call it what it is...it's **SUPER FUN!** *Think of it like "recess" inside. 😊
3. **HEART** – this is a sweet time at the end of class...where Miss Sonya chooses a different virtue/topic each week, and then asks questions. The kids share their answers. We talk about things like forgiveness, bullying, stealing, kindness, etc. *It is seriously my favorite part. ;)

If you would like to sit in class to watch and see what we do, I invite you to do that.
