Course Description:

Thank you so much for the opportunity to be with your student this year. We're going to have a lot of fun, make big messes, and hopefully create some very beautiful artworks! Every art class explores a variety of mediums and techniques each semester, drawing inspiration from great masters of the past as well as current trendsetters and local artists. We learn the Elements of Art and Principles of Design. Topics covered may include: painting, drawing, printmaking, sculpture, fiber arts, carving, ceramics, and crafting.

Essential Questions:

- What is art?
- How do we create art?
- Why do we create art?
- Where can we find art?
- How does art communicate?
- How does art reflect history, culture and society?
