

# Adobe Photoshop

Instructor: Tasha Wynn

Grade: 9th - 12th

Prerequisite: None

Fees: \$30/month tuition, plus \$10 supply fee

Textbook: None

Materials: These supplies are absolute requirements.

Laptop with internet access

Adobe Creative Cloud subscription

Ink pen (no pencils)

Sketchbook

Course Description: Adobe Photoshop is a complex software with a huge amount of photo editing and creative versatility. In this class we will be learning some basic aspects of manipulating photos, creating patterns for various printed surfaces (wallpapers, fabrics, wrapping paper, book covers, etc), simple photo editing and more through challenges, tutorials and classroom critique and instruction. We will be creating various projects in class and at home to learn these skills. This is a fun software to learn with so much possibility! Let's learn together! For this class, the student will need an ink pen (no pencils), a sketchbook, a subscription to Adobe Creative Cloud, internet access and their laptop in class each week.

While we will be working on projects in class, students will need to be able to spend some time to work on these projects at home during the week.

Note: This is not an art class and students do not need to have art skills to be effective in this class. Those skills are helpful, but not a requirement
