Students will have regular work outside of class as well the opportunity to showcase their knowledge of a specific country/region through research and presentation.

**Instructor Background:** During my time working outside the home I worked with International students from all over the world, helping them acculturate to college life in the US, and maintain their immigration status. I also worked with American students who desired to travel abroad and helped them prepare for their international experiences. After years of international travel and work, I left the workforce two years ago and committed my time to homeschool my two daughters, Natalie and Laura.
